## UPDATE

It is great to have reached the end of the financial year with our team at full strength and ready to tackle new projects in 2009 /2010.

It has been a tough year but we have continued to operate thanks to the wonderful support of our customers. Thank you.

## PROJECTS

### Kardinia Park Netball Complex

**Client:** City of greater Geelong

**Budget :** \$1.5m

#### **Deliverables :**

Our task was to examine the existing poorly lit, ageing and low safety 12 court facility and recommend a refurbishment option. The recommendation is for a 9 court facility, including a show court, all to be constructed in reinforced concrete with a synthetic surface overlay. We included in our team a Landscape Architect, Recreation Planner and Historical Consultant and consulted with a wide range of users and city staff.

### Dooen Transport Hub

**Client :** Horsham Rural City

**Budget :** \$2M

#### **Deliverables :**

This project links a grain handling centre with a new rail / road freight hub in Dooen, near Horsham. Our role is to survey and design the 2km new access road as well as it's intersection with the Henty Highway. We are working in conjunction with a Geotech specialist to engineer a pavement which can deal with the very poor soils under the new road.
